The Defiance Board of Education has been entrusted to provide our students with the best education possible within the resources available to us. The primary consideration in the development of this plan, therefore, has to be to minimize the possibility of any and all things that impact the budget. "You achieve what you measure" and so the goal is to achieve and maintain 120 to 150 true days cash. This forecast is projected to sustain this philosophy through FY2021. Priority continues to be given to not impact our students' program availability and quality any more than absolutely necessary. Superintendent Morton, the Administrative Team, staff and Board of Education Members continue to review ways to cut costs for our district while offering an outstanding education and service to our students and community.
